ÖAW – We discover the future

As a central non-university institution for science and research, the **Austrian Academy of Sciences (ÖAW)** has the task of **"promoting science in every respect."** Founded in 1847 as a scholarly society, it now has over 760 members and around 1,800 employees and stands for innovative basic research, interdisciplinary knowledge exchange, and the communication of new findings. The ÖAW initiates and maintains partnerships worldwide and represents Austria in international scientific organizations. It cooperates with numerous institutions in the scientific field in order to actively shape the research landscape.

IT network technician (m/f/x)

Job ID: ZVARZ132TEC125

The Austrian Academy of Sciences (ÖAW), the largest non-university institution for basic research in Austria, is seeking to fill the position of

IT network technician (m/f/x)

(including further training as a cybersecurity engineer)

(full-time, 40 hours per week, Vienna 1010)

Your responsibilities

We are looking for:

an ambitious **IT network technician (m/f/x)** who is ready to take the next step in their career and train as a cybersecurity engineer. If you are passionate about IT security, are technically savvy, and want to develop professionally, you've come to the right place!

Your responsibilities:

- **Analysis**, planning, and implementation of security measures in IT infrastructures
- **Monitoring** and optimization of network security
- **Conducting** security analyses and penetration tests
- **Identification**, assessment, and elimination of security risks
- **Collaboration** in the development and implementation of security guidelines
- **Training and awareness-raising** of employees in IT security issues

Your profile

- **Successfully completed** training in the field of IT (e.g., IT specialist for system integration, IT technician, degree in computer science, or comparable qualification)
- **Relevant professional experience** of at least 3 to 5 years in the field of IT network administration/technology
- **Language skills:**
  - **GERMAN** fluent in spoken and written (at least C1) according to **CEFR**
  - **ENGLISH** good (minimum B2) according to **CEFR**
- Knowledge of network protocols, firewall configuration, and network analysis
  Keen interest in IT security and willingness to undergo intensive further training
  Analytical mindset, problem-solving skills, and team spirit
  Optional: Initial exposure to cybersecurity technologies (not a must)

What we offer

- Structured training to become a cybersecurity engineer (e.g., certifications such as **CEH**, **CISSP**, **CompTIA Security+**)

- Individual development opportunities and regular training

- A friendly team and flat hierarchy

- Flexible working hours in a central downtown location and the option to work from home

- Gross salary according to the collective agreement of at least **€ 60,200.00** per year. In addition, we offer a competitive salary depending on qualifications and experience.

JETZT BEWERBEN

The Austrian Academy of Sciences (ÖAW) pursues a non-discriminatory employment policy and values equal opportunities and diversity. People from underrepresented groups are particularly encouraged to apply.
